ABOUT

Hey! I'm Federico, I'm from Italy, 24 and based in Berlin since 2017.

I'm a self taught developer, I'm very independent and resilient.

I excel in environments where I can see the impact of my work and have freedom to work autonomously.

Nevertheless I love to work in teams, communicate and I'm always looking to exchange feedbacks with my colleagues.

If you're interested knowing more about me: federicco.world

EXPERIENCE

- 1 year of experience building frontend applications.
